

AGREEMENT FOR PHOTOVOLTAIC SYSTEM INSTALLATION PROJECT

This Agreement for Solar Power Project (the "Agreement") is made and entered into **November 27, 2025** by and between:

SALINAS SOLAR ENTERPRISES CORPORATION, a duly registered company in the Philippines, with office address at **Roman Superhighway, Brgy. Bilolo, Orion, Bataan**, represented by **Mr. Jay-R Garado Salinas**, hereinafter referred to as the "Contractor",

ARTHUR CANAVERAL FAUSTO, with address at **B1 L8, Greenheights Executive Homes 4, Brgy. San Isidro, Cainta, Rizal**, hereinafter referred to as the "Client".

WHEREAS, the Contractor is engaged in the design, supply, and installation of photovoltaic (PV) solar power systems;

WHEREAS, the Client desires to procure the Contractor's services for the supply and installation of a solar power system at the Client's specified location;

NOW, THEREFORE, in consideration of the mutual covenants herein contained, the parties agree as follows:

1. PROJECT DETAILS

- **Project Name:** Installation of a 4.96kW Hybrid Solar Power System with 15.36kWh Battery
 - **Project Location:** Sitio Mabilog, Zone 3, Brgy. Sto Nino 2nd, San Jose City, Nueva Ecija
 - **Project Description:** The Contractor shall design, supply, install, test, and commission a solar power system.
-

2. CONTRACT AMOUNT

The total project cost is **PHP 345,000.00 (Three Hundred Forty Five Thousand Pesos Only)**, inclusive of all materials, mobilization, and installation.

3. SCOPE OF WORK

The contractor shall be responsible for the following:

3.1 Site Assessment

- Conduct preliminary evaluation of the installation site, including structural integrity assessment of the rooftop.
- Perform shading analysis to optimize solar panel placement.
- Assess electrical infrastructure compatibility with the solar system.

3.2 Construction of Solar Rooftop Power System

- Supply and installation of necessary materials.
- Proper mounting and secure installation of the solar panels, inverter, and protection devices.

3.3 Civil Works

- Reinforcement and preparation of the roof structure to support the solar panels.
- Installation of weatherproofing measures to protect the system components.
- Fabrication of mounting frames for inverter and breaker box.

3.4 Electrical Works

- Wiring and cabling works from the solar panels to the inverter and electrical panel.
- Installation of circuit breakers, protection devices, and grounding systems.
- Ensuring compliance with relevant electrical codes and safety regulations.

3.5 Training to System Owner

- Provide a comprehensive orientation on system operation, monitoring, and basic troubleshooting.
- Guide the owner on energy consumption optimization and system maintenance.

3.6 Others

- Bi-annual system evaluation performance report/maintenance service for fifteen (15) years.
- Installation of wiring to and from AC/DC Pump 120 meters (materials billed to system owner)

List of Materials:

1. Solar Panels - 8 units AE 620W
2. Inverter - 1 unit Deye Hybrid 6.0kW
3. Solar Battery - 1 units DJDC 15.36kWh LiFePO4 Battery
4. Mounting Structures
5. Complete AC/DC Cables and Connectors
6. Combiner Box and Safety Switches
7. Monitoring System

4. SCHEDULE OF PAYMENT

100% payment upon delivery of materials and commissioning- Php 350,000.00

Cash Payment - Php 85,000.00

BDO Credit Card- Php 260,000.00

5. COMMENCEMENT AND COMPLETION TIME

5.1 First Phase (November 27, 2025 AM)

- Installation of wire conduit from the roof to the main PV system panel.
- Installation of wire conduit from main breaker panel to the main PV system panel.
- Wire laying for the PV cable.
- Installation of Solar Panels

5.2 Second Phase (November 27, 2025 PM)

- Installation of inverter, battery, breakers and other main PV system panel component
 - Testing and commissioning
-

6. WARRANTY

The Contractor guarantees the following warranties:

1. **Solar Panels:** 10 years performance warranty.
2. **Inverter:** 5 years manufacturer warranty.
3. **Battery:** 5 years manufacturer warranty

Warranty covers repair or replacement of defective items due to manufacturing defects, improper installation, excluding force majeure damage due to misuse by the Client.

7. OBLIGATIONS OF THE CLIENT

The Client agrees to:

1. Provide access to the project site for installation and inspection.
 2. Ensure timely payment as per the terms of this contract.
 - a. Penalty fee of 8% of the total system price for every week of delayed payment from the due date.
-

8. TERMINATION

Either party may terminate this contract with a written notice within **5 (five)** days. In case of termination:

- Any materials delivered and installed remain the property of the Contractor until full payment.
 - The Client is liable for payment of completed work and procured materials.
-

9. FORCE MAJEURE

The Contractor shall not be held liable for delays or failure to perform due to circumstances beyond its control, including natural disasters, labor strikes, or government restrictions.

10. ENTIRE AGREEMENT

This contract constitutes the entire agreement between the Contractor and the Client, superseding any prior agreements or understandings.

11. GOVERNING LAW

This contract shall be governed by and construed in accordance with the laws of the Republic of the Philippines.

**IN WITNESS WHEREOF, the parties hereto have executed this contract
as of the date first written above.**

FOR THE CONTRACTOR:

SALINAS SOLAR ENTERPRISES CORPORATION

By: _____

Engr. Jay-R G. Salinas, ME, CEM
Representative

Date: _____

FOR THE CLIENT:

By: _____
Arthur Canaveral Fausto
